

MBN Africa

Building a platform for founders who are
serious about execution

MBN Africa

Building a platform for founders who are serious about execution

WHAT MBN IS

01

MBN is a platform designed for African founders who are actively building businesses.

We focus on what actually drives growth:

- Execution
- Decision-making
- Sustainable business building

Not hype. Not theory. Real work.

WHY THIS EXISTS

02

Most entrepreneurship ecosystems focus on:

- Fundraising
- Pitching
- Venture-backed growth

But most founders will never raise venture capital.
And even those who do still need to build real businesses.

MBN exists to:

- Provide practical, experience-driven knowledge
- Support founders in execution
- Close the gap between learning and doing

CORE INITIATIVES

03

Founder Stories = Insight

Curated conversations with founders who have built real businesses.

Focus:

- Decisions
- Failures
- Lessons learned

Small, curated sessions (20–30 founders).
Content is recorded and shared more broadly.

Founder Labs = Application

Practical, problem-focused workshops.

Each lab focuses on a specific challenge.

Example:

From idea to first customer in 30 days

Goal:

- Clear outcomes
- Immediate application
- Structured execution

Founder Circles = Implementation

Small accountability groups formed after labs.

Purpose:

- Ensure implementation
- Create peer accountability
- Support founders through execution

Founders Retreat = Reflection + Strategy

A small, curated offsite experience for founders.

Format:

- 2–3 day intensive
- Reflection on past performance
- Strategic planning for the next phase
- Deep conversations, structured thinking, and peer exchange

Outcome:

Founders leave with clarity, direction, and actionable plans.

MBN Founder Summit = Connection + Expansion

An annual gathering of the MBN network.

Brings together:

- Founders
- Operators
- Partners

Includes:

- Curated sessions
- Founder Stories
- Breakout workshops
- Networking and collaboration

Designed as a moment of reflection, connection, and momentum.

MBN is built around one idea:

Knowledge without implementation has no value.

Everything we design focuses on:

- Action
- Accountability
- Measurable progress

LONG-TERM DIRECTION

MBN is building toward becoming a trusted platform for founders across Africa.

A place where:

- Practical knowledge is shared
- Real businesses are built
- Founders are supported through execution and growth

Over time, the goal is to expand access to more founders while maintaining the quality and depth of the experience.
